

Find a WaterSense® Labeled High-Efficiency Toilet*

Last updated: 03/25/2010

(1.28 gpf)
\$100 Toilet Rebate List

Please note: Many high-efficiency toilets are sold in two parts, with the tank and bowl sold separately. When components combine to make a WaterSense labeled product, tanks should include the words "When used in combination with [bowl model number/name]" in close proximity to the label, and similarly with bowl labeling. Only the combinations listed below have been certified to bear the WaterSense label.

WaterSense retailers commit to making WaterSense products available in stores. However, products may not be available in all markets. For a complete list of WaterSense retail and distributor partners, please go to: <http://www.epa.gov/watersense/partners/partners.htm#retail>

Model numbers often contain wildcard characters before or after the base model number, such as *, #, and X, that serve as placeholders for numbers or letters that indicate attributes like color and finish.
